

Kansas Department of Wildlife and Parks SPECIAL EVENT PERMIT & FACILITY RESERVATION APPLICATION/PERMIT		KDWP Use Only Date received: _____ Fee received \$ _____ Performance deposit: \$ _____ Local approval: _____ Yes No N/A By: _____	
VEHICLE PERMITS REQUIRED- NOT INCLUDED IN SPECIAL EVENT FEE		Regional PL/Fish approval: Yes No By: _____ Other notification: LE: Fed:	
Return this form, with the required payment \$ 1-10 Boats = \$25.00 11-25 Boats= \$100.00 over 25 Boats = \$200.00 Attach additional pages as necessary. <i>(Fees are non-refundable after permit issuance.)</i>			
Complete for all events	PLEASE PRINT CLEARLY! Organization name and address: _____ _____ _____		
	Department property and specific area to be utilized: _____ Will this site be reserved for exclusive use? _____ Type of activity to be conducted: _____		
	Event date(s): (day) _____ (time) _____ to (day) _____ (time) _____ Number of participants (not boats) expected: _____ Anticipated parking needs: _____ Special equipment or facility needs (picnic tables, trash bins, boat ramp, etc.) _____		
	Will food, merchandise, or services be offered for sale? _____ If yes, please specify: _____ Will entrance fees be collected or tickets sold? _____ If yes, please specify price(s): _____ Will any sound amplification system be used? _____ If yes, please specify: _____ Will any cereal malt beverage be served? _____ If yes, please specify estimated amount to be present: _____ Will any firearms or fireworks be discharged? _____ If yes, for what purpose? _____ Will fish or wildlife be tagged or otherwise marked in conjunction with the event? _____ If yes, please specify species, number and release site(s): _____ Will event include live weigh-in black bass tournament? _____ If yes, please specify: _____		
	NOTE: APPLICATIONS FOR BOAT RACES, REGATTAS AND MARINE PARADES MUST BE SUBMITTED AT LEAST 30 DAYS BEFORE THE EVENT DATE. Estimated number of boats participating: _____ Specific description of the event: _____ Full description of safety measures to be utilized: _____ Boat launching site(s): _____ Specific area and size of water to be utilized: _____		
	Vehicle Permits Required on all Vehicles These can be purchased for \$5 per vehicle in the office or at the self-pay station Annual Vehicle Permits/Passports will be accepted in lieu of daily permits		
	Complete for all events As an authorized representative of the organization listed above, I do hold blameless, protect and indemnify the Kansas Department of Wildlife and Parks for damage or loss of property and injury or loss of life resulting from this event. I certify that the event described above and on all attachments will be executed in accordance with conditions specified herein and in statutes and regulations of the State of Kansas. I accept full responsibility for any damage to the facilities, grounds and natural features of the event area, including litter, vandalism and reckless damage resulting from the event. I further certify that all the above information is true and correct, to the best of my knowledge, and that I have read the Special Events General Regulations Summary. Name and daytime telephones of two authorized organization representatives: _____ Telephone: _____ Date: _____ Telephone: _____ Date: _____ Rep. 1 signature: _____ Date: _____ Rep. 2 signature: _____ Date: _____		
KDWP Use Only	Special conditions/comments (scientific data collection required, boating safety requirements, maps, etc.): _____ This certifies that the event is permitted as specified above. Additional agreements - are - are not - required (must be completed and attached to this permit). Authorized KDWP Representative _____ Title/ Position _____ Date Issued _____		

115-7-9. Weigh-in black bass fishing tournaments. (a) Each individual or organization conducting a weigh-in black bass fishing tournament shall ensure that all of the following minimum requirements are met when conducting weigh-in procedures:

- (1) One individual shall provide work crew support for each 10 registered anglers.
 - (2) One weigh-in tank filled with an electrolyte chemical-water solution and fitted with recirculation and aeration accessories shall be maintained for each 25 registered anglers.
 - (3) If the water temperature at the tournament location is 75 degrees Fahrenheit or cooler, the water contained in the weigh-in tank shall be maintained at the same temperature as that of the tournament location water.
 - (4) If the water temperature at the tournament location is warmer than 75 degrees Fahrenheit, the water in the weigh-in tank shall be maintained at a temperature that is between five and 10 degrees Fahrenheit cooler than the tournament location water but shall not exceed 85 degrees Fahrenheit at any time.
 - (5) Not more than four anglers shall be in the weigh-in line at any one time.
 - (6) Each weigh-in bag containing water from the well of the vessel shall be reinforced, reusable, and capable of holding up to 15 pounds of live fish and two gallons of water.
 - (7) The weigh-in site shall meet the following requirements:
 - (A) Be located near the vessel mooring site and the release site, vehicle, or vessel; and
 - (B) be located at all times under a portable awning, in an event tent, or in the shade.
 - (8) Only fish that meet the special length limit for the specific body of water where the weigh-in tournament is being conducted shall be weighed within the period beginning June 16 and ending August 31.
- (b) Each individual or organization conducting the tournament shall ensure that all of the following minimum requirements are met when conducting the release procedures:
- (1) The direct release of fish into the tournament location water after the weigh-in shall not be permitted.
 - (2) If the tournament is conducted with release tubes, vehicles, or vessels, the holding tanks shall contain a one-half percent noniodized salt solution.
 - (3) If the tournament is conducted without release tubes, vehicles, or vessels, the fish shall be dipped, for a period ranging from 10 seconds to 15 seconds before release, in a three percent noniodized salt solution having the same temperature as that of the water in the weigh-in tank.
 - (4) The release site shall meet the following conditions:
 - (A) Be located in water reaching at least three feet in depth with good circulation and a hard bottom; and
 - (B) be located away from vessel traffic and public-use vessel ramps.
 - (c) Each tournament participant shall meet the following requirements:
 - (1) Ensure that each well in the participant's vessel used in the tournament is properly working and contains an electrolyte chemical-water solution; and
 - (2) ensure that the participant's vessel used in the tournament is cleaned before and after the tournament in compliance with department guidelines regarding the prevention of aquatic nuisance species.
 - (d) The provisions of paragraph (a)(7)(A) may be waived by the secretary within the period beginning September 1 and extending through June 15 if the proximity proposed to the release site does not pose an inordinate risk to the wildlife resource and all other requirements of this regulation are met. (Authorized by K.S.A. 32-807; implementing K.S.A. 32-807 and K.S.A. 2010 Supp. 32-1002; effective Jan. 1, 2008; amended April 11, 2008; amended Nov. 19, 2010; amended May 20, 2011 .)

115-18-20. Tournament black bass pass; requirements, restrictions, and pass duration. (a) A tournament black bass pass shall be required for each individual who wants to keep up to five black bass in a daily creel limit that meet the minimum statewide length limit but that do not meet the special length limit for the specific body of water, or who wants to cull black bass after the daily creel limit has been met, during a weigh-in bass tournament as established in K.A.R. 115-7-9.

(b) Each tournament black bass pass shall be valid statewide for one year from the date of purchase.

(c) Each tournament black bass pass shall be validated by the signature of the pass holder written across the face of the pass. A tournament black bass pass shall not be transferable. (Authorized by and implementing K.S.A. 2016 Supp. 32-807; effective Nov. 27, 2006; amended Nov. 16, 2007; amended Nov. 19, 2010; amended Nov. 28, 2016; amended Dec. 22, 2017.)

KDWP Aquatic Nuisance Species Prevention Guidelines

Aquatic nuisance species often travel by hitchhiking with the help of unsuspecting people. Stop Aquatic Hitchhikers – follow these simple steps at every lake and river, every time...

☑ **CLEAN:** Inspect and clean anything that came in contact with the water, including boats, trailers, equipment, clothing, dogs, boots and waders, etc. **Remove** any zebra mussels, other animals, mud, plants and other debris **before leaving the area.**

☑ **DRAIN:** Empty all water from engines, livewells, bilges, bait buckets, and every other conceivable space or item that can hold water **before leaving the area.** Dump live bait on dry land or at bait disposal sites, not into the lake or stream. **Never** move live fish between bodies of water or up streams.

☑ **DRY:** All equipment for 5 days before using it again. If you need to use it sooner, **Wash It** with 140 degree water (retail car washes are OK; so is a 10% water/chlorine solution or hot saltwater) **before using your equipment in another body of water.**

Release Boat/Vehicle Recommendation

To ensure the maximum survival probability of fish undergoing the angling tournament live weigh-in process, it is advisable that no more than 1.5 lbs. of fish per gallon of water be held for any length of time in live wells on boats and/or other vehicles employed to release fish back into the reservoir. All live well water recirculation/aeration, electrolyte, and temperature parameters should follow KDWP regulation 115-7-9 *Weigh-in black bass fishing tournaments.*
