## Proclamation

Issued by the Mayor of Osawatomie

WHEREAS: September 17, 2015, marks the two hundred twenty-seventh anniversary of the drafting of the Constitution of the United States of America by the Constitutional Convention; and

WHEREAS: It is fitting and proper to accord official recognition to this magnificent document and its memorable anniversary; and to the patriotic celebrations which will commemorate the occasion; and

WHEREAS: Public Law 915 guarantees the issuing of a proclamation each year by the President of the United States of America designating September 17 through 23 as Constitution Week,

NOW, THEREFORE I, Mark Govea, by virtue of the authority vested in me as Mayor of the City of Osawatomie in the City of Osawatomie, do hereby proclaim the week of September 17 through 23, 2015 as

## CONSTITUTION WEEK

AND ask our citizens to reaffirm the ideals the Framers of the constitution had in 1787 by vigilantly protecting the freedoms guaranteed to us through this guardian of our liberties, remembering that lost rights may never be regained.

PROCLAIMED this ioth day of September, 2015.

## STAFF AGENDA MEMORANDUM

## DATE OF MEETING: August 27, 2015

## AGENDA ITEM: Recommended 2015-2016 Budget

PRESENTER: Don Cawby, City Manager
BUDGET SUMMARY: Attached is the City Manager's proposed 2016 Budget, along with the revised 2015 Budget, for the City of Osawatomie.

Current Year. The revised 2015 budget is $\$ 15,741,018$, of which $\$ 11,228,911$ is from budget limited funds. The current year revised budget is an overall increase in expenditures of $\$ 3.8$ million over the approved budget, but is a reduction of $\$ 202,641(1.77 \%)$ for limited funds. The budget also reflects an increase in total revenue of $\$ 4.1$ million revenue, with $\$ 238,608$ coming from limited funds.

The approximately $\$ 4.0$ million increase in expenditures and revenues are a reflection of the City's five capital improvement funds which include funding and financing for the Main Street road and waterline projects, the award of the special round of CDBG funding for sidewalks and the sports complex, and the completion of the sewer plant and police station/courtroom projects.

Based on the projected 2015 expenditures and not counting some technical corrections, the City Council should expect to need budget amendments for the General Fund $(\$ 62,833)$, Refuse Fund $(\$ 24,300)$, Sewer Fund $(\$ 111,264)$, and Golf Course Fund $(\$ 110,117)$. The Employee Benefit Fund currently reflects increased 2015 expenditures, but is expected to have expenditures under the currently approved expenditure limits, unless worst case scenarios occur. It is also very possible that the budget amendments will be less than the amounts previously stated. The detail of these increases will be addressed later in this memo.

## 2015 Revised Expenditures - All Funds <br> by Fund

2015 Revised Expenditures - All Funds
by Object of Expenditure

Budget Year. For 2016, the proposed budget for all funds expenditures of $\$ 13,389,567$, of which $\$ 11,890,567$ is from budget limited funds. For all funds, proposed expenditures are a reduction of $\$ 2.4$ million (15\%) from the revised current year expenditures. Hover, for budget limited funds, expenditures increase by $\$ 661,656$ ( $5.9 \%$ ) over 2015 . The proposed budget estimates revenues of $\$ 12,602,648$, with $\$ 10,917,648$ coming from limited funds. Again, overall revenue decreases by $\$ 2.4$ million (19\%), but current year revenues increase slightly by $\$ 87,510$ (1\%).

Major increases in operating expenditures for the current year occur in the General Fund $(\$ 125,513)$, Electric Fund $(\$ 137,301)$, and the Bond \& Interest Fund. There is also one major decrease in the Golf Course Fund $(\$ 86,753)$ to reflect the payout of accrued leave to employees in 2015. All other increases are primarily budget flexibility anticipating operational increases over 2015.

The proposed 2016 budget reflects a mill levy of 64.260, which is a very slight reduction (0.041) from the current mill levy rate of 64.301 . The assessed valuation increased by slightly under onetenth of a percent-from $\$ 22,265,267$ to $\$ 22,285,924$.

2016 Proposed Expenditures - All Funds by Fund

OVERALL ISSUES: There are a few issues which permeate the entire budget. Because our "Big 7" funds-General, Electric, Water, Sewer, Special Parks \& Recreation, Employee Benefit, and Bond and Interest—all have issues that affect each other's operations, most major issues appear in these 7 funds. With a couple of small exceptions, most of the other funds are stand alone in nature and don't have an impact on other operating funds.

Delinquencies in Property Tax. The City continues to see larger than normal delinquencies in property tax collections. Prior to last year, one of the major struggles in putting together the budget was the inability to collect the necessary property tax revenue that was levied as collections continued to come up short each year. In the 2015 budget, the Council approved a delinquency rate of $8.0 \%$, and for the most part, that rate has held true in 2015. The benefit for this year's budget is that there isn't a $\$ 30,000$ to $\$ 50,000$ shortfall in the current year that has to be filled with other revenues or cuts in programs. The 2.4 mill levy increase put in place in 2015 just to get to a correct delinquency percentage has held true through year-to-date collections and helped revenues stay close to budgeted amounts. For 2016, the budget continues an 8\% delinquency rate based on the current year's actual experience.

Current Year Savings. Despite some surprise expenditures in 2015 for failing pumps (which may be attributable to near record rainfall), the current year has benefited from 2 major events. The first is the reduction in fuel prices. In late 2014, the price of gas and diesel fell by 25-35\% from previous levels in the year, creating operational savings for the City. These lower prices are expected to continue into 2016, but counting on the oil market to stay low is not a safe strategy for the budget. Therefore, the 2016 budget includes fuel budgets that mirror 2014 actual expenditure levels, to provide adequate funding should prices unexpectedly rise again.

The second major savings recognized by the City was a $31 \%$ reduction in property and liability insurance from the expected budget. This savings of approximately $\$ 69,000$ was generated through the competitive bidding of the City's insurance policy. The City also received other unexpected savings from insurance in 2015 resulting from the annual dividend which was approximately $\$ 10,000$ higher than 2014 and another $\$ 6,000$ in savings resulting from the annual insurance company compliance audit.

## Other Concerns

Benefits. When factoring out power purchased for resale, by far the City's largest budget item is personnel. The benefits paid by the City equal $26 \%(\$ 892,000)$ of the entire salaries and wages budget. Of those benefits, the contributions to KPERS $(\$ 235,000)$ and health benefits $(\$ 364,000)$ are the two largest items and comprise two-thirds of the entire benefits costs. At this time the future of the growth in these costs are very uncertain.

The State of Kansas continues to tinker with KPERS in an attempt to improve the system's unfunded liability. However, in an attempt to cut costs, the state actually reduced the employer contributions to the fund for the state's 2016 fiscal year. This has lowered our costs for 2016 in employer rates, but likely means that a larger increase is coming if the state can get back on solid financial footing.

The other concern is the continuing rise in health care insurance. The City has made adjustments to our coverage and looked at innovative ways to buy down risk. Unfortunately, this is only holding off a much larger increase that will come when there is a run of high claims from the group. The City will continue to look at options for better and more affordable coverage, but there aren't any cheap and easy solutions available in the market.

Lack of Dedicated Funding. The City currently has a lot of programs competing for the same limited project funds, such as: streets, drainage, parks facilities, building repair and new amenities. As part of its future planning, the City should consider how it might be able to dedicate funding streams for these different amenities so the improvements can begin to be made. Such
dedicated sources would include a storm drainage utility, dedicated sales or property tax for facilities, and targeting user fees to replacement or reserve funds.

Cost of Living Increase. The proposed budget includes no funding for across the board increases in 2016. Should the Council want to set aside funding for this purpose and include it in the 2016 budget, example increases and amounts are included in the tables provided. Normally, the budget would set aside an amount to be distributed by the Council according to a pay increase scenario towards the end of the year. However, with the number of surprises in this year's current budget and a concern over projected ending balances for 2016, it would not have been responsible to provide an increase in the budget. Instead, it is recommended that if the City is able to generate substantial savings in the current year over the projected balances that funding be provided in 2016 for an increase or bonus.

Declining Balances. Again, there continues to be concern over declining balances in 2016, all the while recognizing that the City managed resources well in 2014 in 2015 to provide for stable balances and that 2015 is looking much better than projected. However, this budget does not have the same "wiggle room" in the current or budget year that other budgets have had. The Water and Sewer Funds both show additional rate increases for 2016 because of the underperformance of the past rate increases. The Bond \& Interest Fund will need to be increased significantly in 2017 as the Main Street project is completed and new payments come due.

## SELECTED FUND ISSUES:

## General Fund

Current Year Expenditure Increase. For 2014, the City Council should expect a budget amendment of approximately $\$ 62,000$. This reflects an increase to the Properties \& Maintenance program of about $\$ 85,000$ of expenses being moved from the Special Parks \& Recreation Fund to the General Fund. The remainder of the City's General Fund budget is only a slight reduction in the current year. The revised budget removed funding for the update to the comprehensive plan with the hopes that savings will be generated to fund the project.

New Positions and Programs; Program Changes. The proposed budget has no new positions or programs. Prisoner care expenses have been moved from the Police Department to the Municipal Court program to place all court related costs together. The proposed budget for the Properties \& Maintenance program reflects a full-year of the parks responsibilities, as well as the first year of purchasing replacement mowing equipment.

Housing Demolition. The General Fund continues to include $\$ 30,000$ for housing demolition in both years. The amount for 2015 has been spent.

Municipal Court Clerk. During last year's budget preparation it was a goal to make the municipal court clerk position full-time and to fund the much needed financial system court module. The City was unable to budget for the item, but by the year's end, a full-time police support position was converted into the clerk position, which eliminated a part-time position. The City also discovered a much cheaper solution for court software and will implement it in the next few months.

## Water Fund

Revenues. Revenues have been reduced for the current year based upon year-to-date sales and also the expectation of a continued wet and moderate summer. Revenues for 2015 continue to be following the trend of the past two years, with lower sales. However, the $10 \%$ rate increase for 2015 has not generated the revenue expected because of the wet spring and summer. The total increase in sales for the revised estimate projects to be about $\$ 65,000$ over 2014 sales ( $\$ 80,000$ was budgeted), but $\$ 33,000$ below the budgeted amount for 2015.

The 2016 budget projects collections identical to 2015, but with adjustments for a full 12 months of the 2015 rate increase. For budget purposes, a $\$ 50,000$ increase in rates, or about a $6 \%$ increase is included for 2016. This level of increase may not be needed, but with upcoming debt obligations for the Main Street waterline project, the balance of the fund will have to be closely monitored to ensure that sufficient funds exist to make the new payments.

Debt Payments. The 2016 budget includes interest only payments for 2016 the temporary financing that was issued in 2015. Full payments are likely to being in 2017.

## Electric Fund

Revenues. Revenues have been reduced for the current year based upon year-to-date sales. Sales have been lighter than normal during this year because of the warmer winter and cooler summer. However, humidity levels seems to have bolstered usage during the past couple of months were strong during the cold weather, but they had to be tempered to take into account the cool summer. Sales projections reflect virtually no growth in usage or collections between 2014 and 2015. Any increase in 2015 collections will occur because of the fuel adjustment increases, which at this time are slight.

For 2016, the proposed budget estimates revenues approximately \$250,000 higher than in 2015. That increase represents $\$ 200,000$ in budget flexibility (to cover possible weather impacts) that is also reflected in the cost of purchasing power, and about $\$ 50,000$ in sales increases based upon
the growth in prices. The City will have to change its ECA (fuel adjustment) formula to reflect the end of the Nearman contract in 2015 and in order to claim the estimated $\$ 200,000$ in savings and place it into a reserve fund.

Expenditures. 2015 Expenditures are projected to be $\$ 106,000$ under the approved budget and about 7 percent higher than 2014. Of the increase over 2014, the cost of power accounts for $\$ 86,000$ of the amount. Transmission costs continue the trend of increasing by almost 10 percent over the previous year.

The proposed 2016 budget is an increase in expenditures of $\$ 134,000$ over the revised 2015 amount. However, when the weather contingency and reserve fund transfer amounts are removed, expenditures are estimated to be $\$ 262,000$ less than the current year. That savings is a result of the end of the Nearman contract and a one-time transfer in 2015. The adjusted proposed expenditures are estimated to be on par with actual 2014 expenditures.

## Sewer Fund

Current Year. For 2015, revenues are estimated to be \$30,000 greater than 2014 actual collections, and $\$ 73,000$ over the estimated 2015 approved budget. Current year expenditures are in increase of approximately $\$ 111,000$ over the approved amount budget. This increase is primarily the result of a $\$ 40,000$ budget mistake in the approved budget (leaving out insurance and underestimating utilities), the addition of a $\$ 36,000$ optimization study at the sewer plant, and the addition of $\$ 20,000$ to pay for a portion of a camera system to be split with the streets and levees.

Budget Year. Revenues for 2016 include a $\$ 40,000$ increase over the current year to provide an estimated 5\% rate. This level of increase may not be needed, but with upcoming debt obligations and the other project needed for 2016, such as the lift station replacement and fixing the UV system, the City Council will have to consider a rate increase of some amount for 2016. Proposed 2016 expenditures are virtually even with the current year. One-time expenditures in 2015 are replaced with capital improvements for 2016.

## Special Parks and Recreation Fund

With the responsibility for recreation moved to the School District, the Special Parks and Recreation Fund will transition back to a reserve or project fund, similar to the Street Improvement Fund. Funds are available in 2015 and 2016, but may be expended to assist the school district in the transition of the programs and facilities. If not expended from this fund, parks improvement projects and the trail project will likely be moved to this fund.

## Refuse Fund

Based on the projected 2015 expenditures the Refuse Fund way need a budget amendment to accommodate the projected increase in expenses $(\$ 15,500)$ for the current year. For 2016 the proposed expenditures and revenues have been raised artificially high to eliminate the need for future budget amendments. Since this fund is virtually a pass through fund, there should be no concern about an expenditure limit set at this level.

## Employee Benefits

The mill levy of the Employee Benefits fund was increased by slightly over 1.0 mill to reflect increasing health care costs and higher than expected workers' compensation rates. For budgeting purposes, there is an estimated $\$ 70,000$ in budget flexibility between the current and budget years, which would allow for an ending balance closer to $\$ 80,000$ at the end of 2016.

## Bond \& Interest

The mill levy of the Bond \& Interest Fund is increased slightly in 2016, to continue to capture the 1.6 mill increase that occurred in 2015, in advance of mill levy increases in 2017 and 2018 for the City's portion of the Main Street project not covered by grants.

## Other Funds:

Golf Course Fund. The budget reflects continuing transfers of \$70,000 in both 2015 and 2016. Revenues for 2015 are expected to increase by $\$ 37,000$ over 2014 and by another $\$ 14,000$ for 2016. However, in 2015, the revised budget includes an additional transfer of $\$ 95,000$ that went to cover the cost of leave payout for two employees that left the City service. This majority of this payout was to cover compensation leave that was granted to a salaried employee from 2006 to 2009. Excluding this unusual one-time payment, expenditures are expected to be only $\$ 21,000$ greater than in 2014.

CAPITAL IMPROVEMENTS: The budget includes some major capital improvement projects. The CIP budget includes several capital improvements projects. The major project in 2015 is the reconstruction of Main Street from $1^{\text {st }}$ to $5^{\text {th }}$ Streets and the replacement of the water lines over the same area and from $7^{\text {th }}$ to $12^{\text {th }}$ Streets. The project includes the removal of all water lines into the berm and also reconstruction of curbs and sidewalks.

Other major capital projects in 2015 and 2016 include:

- Replacement of Main Street from $7^{\text {th }}$ to $12^{\text {th }}$ Streets (CDBG dependent)
- Completion of water line on south $5^{\text {th }}$ Street
- Replace water main on Reed from $3^{\text {rd }}$ to $5^{\text {th }}$
- Completion of new Police Station
- Completion of Phase I of the Sewer Plant project
- Completion of new building for the Sports Complex and upgrades to facilities
- Continuation of the underground electric project
- New Council room and Courtroom
- Repair and replacement of breakers at the power plant
- Reconstruction of the West Lake Road
- Golf Course clubhouse upgrades

COUNCIL ACTION NEEDED: (1) Conduct the public hearing and take comments, (2) Vote on the 2016 Proposed Budget as presented, (3) Vote on the 2016-2020 CIP Budget.

STAFF RECOMMENDATION TO COUNCIL: Approve by motion the 2016 Proposed Budget and 2016-2020 CIP Budget.

CERTIFICATE
To the Clerk of Miami County, State of Kansas
We, the undersigned, officers of

## City of Osawatomie

certify that: (1) the hearing mentioned in the attached publication was held; (2) after the Budget Hearing this budget was duly approved and adopted as the maximum expenditures for the various funds for the year 2016; and (3) the Amounts(s) of 2015 Ad Valorem Tax are within statutory limitations.

## NOTICE OF BUDGET HEARING

## The governing body of

## City of Osawatomie

will meet on August 27, 2015 at 6:30 pm at Memorial Hall for the purpose of hearing and answering objections of taxpayers relating to the proposed use of all funds and the amount of ad valorem tax.
Detailed budget information is available at City Hall or on the City website at www.osawatomieks.org and will be available at this hearing.
BUDGET SUMMARY
Proposed Budget 2016 Expenditures and Amount of 2015 Ad Valorem Tax establish the maximum limits of the 2016 budget. Estimated Tax Rate is subject to change depending on the final assessed valuation.

Build 14 concrete column caps as shown on plans including the following: rebar dowels, rebar ties, epoxy grout, bracket anchors, forming and placement of concrete, installing Owner furnished beam bracket, furnish and install treated lumber header beams, furnish and install neoprene bearing pads, furnish and install lags/ glue/ fasteners for beam connections.

Excludes masonry work or pointing, any work involving the chimney/fireplaces, any work with the trusses, truss connectors, roofing or trim, concrete testing, permit fees, engineering fees, or any other professional services.

Excludes sales taxes. If awarded, we will require a project sales tax exemption certificate from the Owner, prior to any work.

Work to be done during normal working hours, unless other arrangements are made.
Including worker's comp \& G/L insurance.
Including supervision, labor, tools, and equipment to accomplish the scope of work.

## Acceptance of Proposal

The above prices, specifications and conditions are satisfactory and are hereby accepted. Legacy Contractors, LLC is authorized to to the work as specified. Payment will be made as outlined above or pay finance charges.
Jate of acceptance: $\qquad$ Signature: $\qquad$

## STAFF AGENDA MEMORANDUM

DATE OF MEETING: August 27, 2015

## AGENDA ITEM: Generation Project

PRESENTER: Don Cawby, City Manager

ISSUE SUMMARY: The City of Osawatomie operates an electric utility for the citizens of Osawatomie. The utility currently has approximately 2,000 meters, an average daily load of 95 mWh and an expected peak load of 9.2 mW . The City distributes the power on a 4160 volt system through two interconnects with KCPL and two substations.

The City owns and operates 5.6 mW of onsite dual/fuel generation, which because of age and efficiency issues is primarily serves as emergency back-up and as capacity coverage for whole sale purchasing of power. The City currently has the following energy contracts which provides the City with 6.8 mW of power:

Table 2 - Current Capacity (mW) and Cost (2014) without Transmission

| Provider | Capacity | Charge <br> Charity | Energy <br> Purchased | Cost of <br> Purchased | Energy <br> $\mathbf{\$ / m W h}$ | Total <br> $\$ / \mathrm{mWh}$ |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
| GRDA | 3.0 | $\$ 277,683$ | 22,198 | $\$ 866,772$ | $\$ 39.1$ | $\$ 51.6$ |
| Nearman | 2.5 | 234,300 | 5,145 | 199,618 | 38.8 | 84.3 |
| WAPA | 0.9 | 52,030 | 2,806 | 64,271 | 22.9 | 41.5 |
| SPA | 0.4 | 22,280 | 585 | 12,171 | 20.8 | 58.9 |
| EMP1 | 5.6 | 0 | 4,629 | 201,753 | 43.6 | 43.6 |
| Total | $\mathbf{1 2 . 4}$ | $\mathbf{\$ 5 8 6 , 2 9 3}$ | $\mathbf{3 5 , 3 2 8}$ | $\mathbf{\$ 1 , 3 4 4 , 5 8 5}$ | $\mathbf{\$ 3 8 . 0 2}$ | $\mathbf{\$ 5 4 . 6}$ |

The City was given the opportunity in 2014 to opt out of the BPU-Nearman contract, which currently costs the City $\$ 234,000$ per year for capacity and is very unreliable. As the table demonstrates above, the cost of power from this facility. Some of the major limitations of the current system are:

- Generation only supports half of the City's load. In order to move load to all legs of the City's system when the City is generating emergency power, switches and connections must be manually moved to feed those legs to connected to the power plant substation. This can only occur if usage is under the City's generation capacity at the power plant. When usage is higher and power is dropped from the interconnection, southern portions of the town are without power. As mentioned earlier, the City's peak load is a little over 9 mW and the City generation capability is only 5.6 mW . Almost half the town would be without power during peak times.
- Backup generation is currently manually operated and slow to come online. None of the City's generators have the appropriate switches or equipment to come on automatically and come back online in a timely manner. In fact, employees have to work with flashlights in order to bring the current generators online.
- The City distributes power at a lower voltage than typical systems. The current 4160 volt system is in need of an upgrade to 12470 volts in order to increase reliability and reduce wasted power through line loss.

## Proposal

The City has been investigating its options concerning the replacement of capacity for the BPUNearman power since the City voted to opt out of the contract in 2014. By opting out, in the short-term the City will save approximately $\$ 240,000$ per year in capacity payments being paid to BPU-Nearman and will instead have to replace the capacity. This can come from a contract
with another provider for additional capacity or by building that capacity into its current generation profile.

After forming a Power Supply Task Force and meeting several times to discuss the best long-term strategy for the City, a consensus was reached that the City should look at options for increasing the City's generation capabilities. This would not only provide the needed capacity at the same or a slightly higher cost to the City, but would provide the City with back-up generation for the entire community and plenty of capacity for expansion in its industrial areas.

As the City began investigating possibilities and developing a budget, the City learned of seven 2 mW generators available for purchase ( 14 mW total). The generators are 2006 Caterpillar 3516 generators with diesel engines which run at 1800 rpms . The generators come with 480 V step-up transformers and switch gear to distribute at 13.8 volts. The generators are under the original warranty which will expire in November 2016. All generators are in the low to mid two-thousand hour range. Typically generators like these will run from 10,000 to 15,000 hours before the generators will need to be rewound. Each unit is RICE complaint and comes in its own modular building with switchgear. The original price on the units was $\$ 2.2$ million, which would be about $\$ 157,000$ per mW. New, these units would run over $\$ 1.0$ million each.

The current costs related to this proposed project are included on Table 1.

## Financing

As shown in Table 1 above, the full project is conservatively estimated to be approximately a $\$ 6.1$ million. Financing would be through Electric Revenue Bonds which would be repaid by electric receipts. As shown in the attached proforma, the City will experience approximately $\$ 240,000$ in savings by eliminating the BPU-Nearman capacity contract. Second, the City will have the opportunity to sell excess capacity to other municipalities. The City's excess capacity could easily generate another $\$ 100,000$ to $\$ 200,000$ in revenue once the excess capacity can be fully marketed. For this proforma, the City estimates conservative revenues until such time the excess capacity can be sold.

The proforma also estimates an approximately $3 \%$ increase in rates for 2016 and 2017. However, this is a very conservative proforma which does not consider the complete timing of debt, the conservative estimate of costs, and the possibility of other revenue from capacity sales. Should loan proceeds exceed the cost of the project, there will be flexibility in the bond issuance to allow that money to be spent on the distribution upgrade thereby reducing the future cash outlay in the proforma.

It should be noted that in order to issue revenue bonds for this project, the City will need to undergo a bond rating process before issuing the bonds. This process will take several hours of preparation time by City staff.

Table 1 - Projected Expense Summary

|  | Original <br> Peterson | 7 Units <br> Updated | 6 Units <br> Updated |
| :---: | :---: | :---: | :---: |
| Generator Delivery | \$ 220,000 | \$ 112,000 | \$ 99,000 |

## Table 2 - Project Timeline

Aug 20
Megger test \& inspect plant by Wilson Electric, Gary Pern completed. City cost $\$ 6,000$.
Aug 27 Approve resolution to approve the issuance of bonds for the project.
Sep 2 Publish Resolution. Once published, there is a 15 day protest window before bond the City could lock in any costs.

Sep 10 Approve the City Manager to make a $\$ 250,000$ non-refundable deposit should there be no protest on the bonds.

Sep 18 Put down a \$250,000 non-refundable deposit.
Oct City undergoes bond rating process.
Mid-Oct Generators are shipped to either a Cat facility or Osawatomie for placement, inspection and servicing. Load tested once on site in Osawatomie. Cat warranty will cover any defects found at that time.

Nov City issues bonds. Makes payment on remainder of generators and pays accrued moving and engineering expenses.

Early Dec City purchases extended warranty with operating funds, after bonds proceeds are distributed and down payment recouped.

## Project Benefits

Some major items in the Capital Improvements Plan and we will be realized by this one project. Of course, is the primary goal of the addition of generation for capacity and backup power for the entire City.

Second, is the much needed upgrade to the City's distribution system. This project will allow the City to have in place the substation and equipment to upgrade the City to a 12470 volt system over a 6 to 8 year time period. The plan would be to focus all current yearly system upgrade funding to a replacement of a feeder leg at a rate of about 2 legs per year. This focusing of costs should allow the City to upgrade the system with its own staff, saving hundreds of thousands of dollars over the life of the project. Furthermore, we anticipate the system upgrades to only cost about $\$ 75,000$ per year, of which most would be included in the current operating budget.

Third, is the moving of the electric shop to the public works shop and building an expanded building. The new building would fit within the current open yard of the public works shop and allow all non-plant Public Works and Utilities employees to be located in one area.

Fourth, it would also free up the current Electric Line Shop to be used as the Osawatomie Fire Station. Some renovations may be needed, but they can be completed by volunteer and City staff at a relatively minimal cost.

Another major advantage of this project will be the City's ability to stand out as an attractive option for industrial businesses with large power needs. This configuration of generation will allow the City to market its units as on-site backup power for a large power-using industry in the Northland development area.

## Alternatives to this Project

Both City staff and the Power Supply Task Force have examined options and alternatives to this project, and have developed the following analysis of the major options.

Save and Pay Cash. There are two reasons why banking the savings from the Nearman Project and paying cash for the project later is not a viable option. First, the City needs to address its long-term capacity needs within the next couple of years. The City would have to save \$240,000 for 25 years in order to raise the $\$ 6.0$ million needed for this project. Even if interest kept up with the time value of money, the City's growth would be limited by not having adequate generation.

Second, it is a buyer's market for generation. Currently generation, capacity and electricity rates are at a low point in the business cycle. Generation is becoming available because of the increased alternative sources available on the market. This drives down both capacity costs and the cost of acquiring generation. Coupled with a time of low interest rates, in just a few years the City would pay more in interest costs and for the value of generation.

Without the Electric Shop and current Power Plant, the complete upgrade costs a little under $\$ 350,000$ per mW of generation. The cost of just acquiring generation, without the costs of other needed distribution related upgrades is typically $\$ 1.0$ million per mW or more. Smaller Project. This

Smaller Project. The City could look at purchasing just the minimum amount of generation necessary to run the entire City. To do so, the City would most likely need to purchase about 5.0 mW of generation to cover the necessary capacity and be able to operate the entire community on a high demand day. Even if the City were able to acquire generation at $\$ 400,000$ per mW or \$2.0 million, which is a better than can be expected price, the City should still expect to pay at
least an estimated $\$ 2.5$ million for the substation, transformer and related switchgear. That is only $\$ 400,000$ less than the price of this project for about $1 / 3$ the capacity.

Sell the Electric System. About 15 years ago, the City considered selling the electric system to KCPL, who was a willing and eager buyer at the time. Without knowing the exact details, the decision was made for the City to retain the system. Now, in this economic climate, when generation is not at a premium, such an offer would not be on the table. Furthermore, the City would need to get a substantial offer to offset the loss of the profit generated by the utility which supplements 15 to 20 mills of tax base. Finally, a state statute is now in place which sets the value for transfer of service areas between public and private utilities, so there is very little leverage to get a better than market deal from a private utility company.

Do Nothing. The City's easiest, but perhaps most costly option is to do nothing. The City's main substation is in desperate need of upgrade and/or replacement. The cost of that upgrade is at least $\$ 1.0$ million and is included in this project. If the City waits until it fails to replace it, the City's energy costs will skyrocket because generators will have to run continuously until the transformer is fixed.

Also, the City currently has about $15 \%$ loss between energy purchased and energy sold. It is estimated that about $5 \%$ of that amount is for street lights, with a large remained being distribution line loss and some small amount of unmetered use. Furthermore, the current 4160 voltage limits the distance power can travel without adding a substation. If the City does not invest in an upgrade the 4160 system, the cost of transformers, switches and equipment will become very costly because new production of this equipment will become limited.

Most importantly, if the City waits until the system is on its last legs, contract labor will be required to upgrade the system quickly, meaning that the cost of the upgrade would be at least, if not more than, the entire generation and distribution project as proposed. The 2011 Sawvel Study of the City's distribution system estimated that a new substation and upgrade to a 12470 system, performed by contractors, would cost approximately $\$ 5.3$ million.

COUNCIL ACTION NEEDED: Review and discuss the project and consider the proposed bond resolution.

STAFF RECOMMENDATION TO COUNCIL: To move this project forward, the City Council will need to approve the proposed Bond Resolution to allow the notice and protest period to occur before the City can expend funds with the ability to get reimbursed from bond proceeds. This does not require the City Council to issue bonds at this time. At the September 10 meeting, the City Council will be asked to authorize the City Manager to make a sizeable non-refundable down payment on the project once the notice and protest period has expired.

The Power Supply Task Force, which represents 3 of the City's largest utility customers, and City Staff recommend the approval of this project.

## LOAD MANAGEMENT 2000 ekW 2500 kVA 60 Hz 1800 rpm 480 Volts

Caterpillar is leading the power generation marketplace with Power Solutions engineered to deliver unmatched flexibility, expandlability, reliability, and cost-effectiveness.

## FEATURES

UL 2200

- UL 2200 Listed configuration available FULL RANGE OF ATTACHMENTS
- Wide range of bolt-on system expansion attachments, factory designed and tested ENCLOSURES (optional)
- Weather protective and sound attenuated SINGLE-SOURCE SUPPLIER
- Fully prototype tested with certified torsional vibration analysis available WORLDWIDE PRODUCT SUPPORT
- Caterpillar® dealers provide extensive post sale support including maintenance and repair agreements
- Caterpillar dealers fill $99.7 \%$ of parts orders within 24 hours
- Caterpillar dealers have over 1,844 dealer branch stores operating in 166 countries
- The Cat Scheduled Oil Sampling ( $\mathrm{S} \cdot \mathrm{O} \cdot \mathrm{S}^{\mathrm{sm}}$ ) program cost effectively detects internal engine component condition, even the presence of unwanted fluids and combustion by-products

## CAT 3516B TA DIESEL ENGINE

- Reliable, rugged, durable design
- Field-proven in thousands of applications worldwide
- Four-stroke-cycle diesel engine combines consistent performance and excellent fuel economy with minimum weight
- UL 2200 Listed packages are available. Certain restrictions may apply. Consult with your Caterpillar dealer

## CAT SR4B GENERATOR

- Matched to the performance and output characteristics of Caterpillar engines
- Optimum winding pitch for minimum total harmonic distortion and maximum efficiency
- Single point access to accessory connections
- UL 1446 recognized Class H insulation

## CAT CONTROL PANELS

- Controls designed to meet individual customer needs:
- EMCP II+ offers full-featured power metering and protective relaying
- UL 508A Listed

## 

- EMCP II+
- 24 Volt DC Control
- NEMA 12, IP44 enclosure
- Electronically dead front
- Lockable hinged door
- Generator instruments meet ANSI C-39-1
- Generator terminal box mounted
- Single location for customer connection
- UL508A Listed
- Panel illuminating lights
- Auto start/stop control
- True RMS metering, 3-phase
- Digital indications for:
- RPM
- Operating hours
- Oil pressure
- Coolant temperature
- System DC volts
- L-L volts, L-N volts, Phase amps, Hz
- ekW, kVA, kVAR, kWhr, \%kW, PF
- Shutdowns with indicating lights for:
- Low oil pressure
- High coolant temperature
- Low coolant level
- Overspeed
- Emergency stop
- Failure to start (overcrank)
- Programmable protective relaying functions:
- Under and over voltage
- Under and over frequency
- Reverse power
- Overcurrent (phase and total)
- Programmable kW level relay
- 3 spare indicator LED's (programmable)
- 4 spare alarm/shutdown inputs

THE GOVERNING BODY

OF THE
CITY OF OSAWATOMIE, KANSAS

Providing Notice of the Intent to Issue Not to Exceed
\$6,800,000
CITY OF OSAWATOMIE, KANSAS
ELECTRIC UTILITY REVENUE BONDS
$\qquad$

## RESOLUTION NO.

$\qquad$

#### Abstract

A RESOLUTION OF THE GOVERNING BODY OF THE CITY OF OSAWATOMIE, KANSAS, DECLARING IT NECESSARY IMPROVE AND UPGRADE THE ELECTRIC UTILITY SYSTEM OWNED AND OPERATED BY THE CITY; TO ISSUE REVENUE BONDS OF THE CITY IN AN AMOUNT NOT TO EXCEED \$6,800,000 FOR THE PURPOSE OF PAYING THE COSTS THEREOF; AND PROVIDING FOR THE PUBLICATION OF THE NOTICE OF SUCH INTENTION IN THE MANNER REQUIRED BY LAW.

WHEREAS, the governing body of the City of Osawatomie, Kansas (the "City"), is authorized under the laws of the State of Kansas, including specifically K.S.A. 10-1201 et seq., as amended, (the "Act"), to issue revenue bonds for the purposes, among others, of paying the costs of acquiring, constructing, reconstructing, altering, repairing, improving, extending or enlarging the City's electrical utility (the "System"), including acquisition of seven (7) 2006 Caterpillar 3516 two megawatt diesel engine generators, construction of a substation for generators, construction of a shop building, repair and rehabilitation of generators, and all thing necessary and related thereto (the "Project"); and

WHEREAS, the City finds and determines it is necessary and desirable to acquire, construct and equip the Project on sites located in the City; and finds that the costs should be financed by issuing revenue bonds under the authority of the Act; and

WHEREAS, the City is authorized under the laws of the state of Kansas to issue general obligation bonds to repair, alter, extend, reconstruct, enlarge or improve the System and the Project will not cause duplication of any existing electric utility service furnished by a private utility within the boundaries of the City; and

WHEREAS, the City finds and determines it to be necessary and desirable for the City to issue revenue bonds in a principal amount not to exceed $\$ 6,800,000$ (the "Bonds") for the purpose of paying the costs of acquiring, constructing and equipping the Project.

NOW THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF OSAWATOMIE, KANSAS:

SECTION 1. It is found and determined necessary and advisable to enlarge and improve the System by acquiring, constructing and equipping the Project, at a total estimated cost of \$6,800,000, including related bond reserves and financing costs. The Project will be owned and managed by the City.

SECTION 2. It is further determined to be necessary to issue electric utility revenue bonds of the City, in an amount which shall not exceed $\$ 6,800,000$ (the "Bonds"), under the authority of the Act, in order to pay the costs of the Project, including related bond reserves and financing costs.
$\qquad$ - Continued.

This resolution is a declaration of official intent for purposes of United States Treasury Regulation §1.150-2.

SECTION 3. It is found and determined that the Project will not cause duplication of any existing utility service furnished by a private utility in the City.

SECTION 4. Before the Bonds may be issued, the City Clerk shall publish a notice of the City's intention to construct the Project and to issue such Bonds, in substantially the form attached to this Resolution as Exhibit A, and incorporated here by this reference. The notice shall be published one time in the City's official newspaper as required by law. If, within 15 days after the date the notice is published, a protest against the Project and the issuance of the Bonds signed by not less than $20 \%$ of the qualified electors of the City is filed with the City Clerk, then the question of the acquiring and constructing the Project and the issuance of the Bonds shall be submitted to the electors of the City at a special election which shall be called for that purpose as provided by law. If no sufficient protest is filed within the 15 day period, the governing body will be authorized to proceed with the Project and issue the Bonds.

SECTION 5. This Resolution shall be in full force and effect after it is adopted by the governing body of the City.

## PUBLIC NOTICE

## TO: RESIDENTS OF THE CITY OF OSAWATOMIE, KANSAS

Notice is given to you that the governing body of the City of Osawatomie, Kansas ("City") intends to improve the electric utility system owned and operated by the City by acquiring seven (7) 2006 Caterpillar 3516 two megawatt diesel engine generators, constructing a substation for generators, constructing a shop building, repairing and rehabilitating generators, and all things necessary and related thereto (the "Project",) at a total estimated cost of $\$ 6,800,000$, including bond reserves and financing costs.

To pay the cost of the Project the governing body of the City intends to issue electric utility revenue bonds, in an amount which shall not exceed \$6,800,000 (the "Bonds") under the authority of K.S.A. 10-1201 et seq., as amended and supplemented. The Bonds shall not be general obligations of the City payable from taxation, but shall be payable only from the net revenues derived from the operation of the City's electric system, including the Project.

This notice shall be published one (1) time in the official newspaper of the City and if, within 15 days after the date of publication, a written protest against the Project or the issuance of the Bonds, signed by not less than $20 \%$ of the qualified electors of the City, is filed with the City Clerk, then the governing body of the City will submit the question of proposed Project and the issuance of the Bonds to the electors of the City at a special election, which shall be called for that purpose as provided by law. If no sufficient protest to the Project and the issuance of the Bonds is filed within such period, then the governing body of the City will have authority to proceed with the Project and issuance of the Bonds.

BY ORDER of the governing body of the City of Osawatomie, Kansas, on August 27, 2015.
