

# Great**LIFE**

## *Golf & Fitness*

Like many of the companies you are receiving emergency emails from right now, GreatLIFE is also tremendously concerned about your safety and the safety of our team members during the COVID-19 outbreak. This only makes sense, as we are literally all experiencing this together, and we have a common duty to look after each other. To say that this virus is unprecedented to anyone alive today is an understatement, but rest assured, we will collectively rise to the challenge. We are well aware that during this time of social distancing and sometimes self-quarantining, some fresh air and a round of golf could be a welcomed escape. For that reason, we are doing everything we can to make sure that if you visit one of our courses, we are helping you do so in as safe and socially conscious a way as possible.

For your safety and health during this COVID-19 Virus, we are focused on creating a **Zero Touch Environment** during your golf experience at our course(s). Thus, we will be taking the following precautions during your visit to the course:

1. When you arrive at the course, you do not need to come into the Golf Shop at all to check in. Please call the Golf Shop from your cell phone and check in through the phone 913-755-4769. If you are not a member, you can pay for your round via credit card over the phone. If you absolutely need something from the Golf Shop; golf balls, bottled water, etc, you are permitted to come into the Golf Shop and purchase your item. We encourage the use of credit cards as much as possible.
2. If you need to use the restroom, we are using a one in, one out policy. Please make sure nobody else is in the restroom when you go in. Wash your hands thoroughly once you are done.
3. We are permitting you to take a golf cart solo, unless you are with someone that you feel comfortable riding with. The carts will already be keyed on and ready to go when you get there, so you do not need to touch the keys.
4. We will be cleaning each cart thoroughly before and after your round with bleach water. We do encourage you to bring your own hand sanitizer to have throughout the day.
5. While on the course, you will see the following changes to prevent any germs being spread...
  - We are cutting the cup leaving 1.25" above the putting surface, eliminating the golfer reaching into the cup or touching the flagstick.

- We are removing all unnecessary "Touch" items on the golf course, including:
  - Water Coolers
  - Ball Washers

Overall, we ask that you please think of not just yourself, but others as well when at the course. We do feel that the golf course is one of the safer places anywhere right now and we want to keep it that way. Your compliance will greatly help! Thanks and please check [greatlifekc.com/health](http://greatlifekc.com/health) for more information.

Regards,  
Eric Draper
